The effort has been delayed ever since the organization of the church since the organization of the church eighteen months ago, on account of the pressure of money matters, and while money is still scarce, yet they think themselves almost compelled to get a lot and build a house. It is not their purpose in the infancy of their work to build, at present, a fine church. They will be satisfied with a lot and a chapel that will likely cost \$5000 or \$600. Their purpose is to erect a chapet when the lot is secured, to which a larger and better church can added when the congregation shall once abler to build. The paster has s added when the congregation shall secone abler to build. The paster has breath as the course abler to build.
